

Local Services for Disabled Young People and Children

Healthwatch Cheshire West is carrying out a study to identify gaps in health and social care service provision for disabled children and young people from birth to age 25.

Questions that we are going to ask

What is **good** about your services?

Why does it **work well**?

What is **bad** about your services?

Why does it **go wrong**?

We are keen to hear from disabled children and young people (including those in transition to adulthood), their families, carers and key partners about services in West Cheshire that work well and what doesn't work so well.
